TOP SECRET

25X1

2 December 1982

MEMORANDUM FOR:

[Redacted] Special Assistant to the DCI for Interdepartmental Affairs

25X1

FROM:

[Redacted] Executive Secretary, STAP

25X1

SUBJECT:

Issues for the Forthcoming Quarterly STAP Meeting

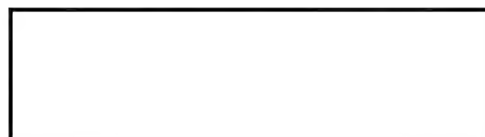

1. Per our recent telephone conversation, I am forwarding to you a copy of the agenda for the forthcoming STAP plenary session scheduled for 7 and 8 December 1982. This meeting will focus on a number of important intelligence issues such as Soviet activities in Space, [Redacted] and a technical review of proposed [Redacted]

25X1
25X1

2. As always, the Panel is eager to meet with the Director and to discuss and explore any issue he may choose to raise. Additionally, the Panel is prepared to discuss with the DCI any problem areas he may have noted in the Intelligence Community's ongoing efforts to improve the quality of scientific and technical intelligence analysis. Specifically, the panel would like to discuss its role and offer its suggestions regarding the content, development, and production of NIE 11-12-83. The STAP has played an active role in the preparation of this estimate in previous years and is prepared to provide every assistance during the production of the current edition. [Redacted]

25X1

[Handwritten note:] [Redacted] will provide you a status report on this estimate (Soviet R&D).

CONFIDENTIAL

MEMORANDUM FOR: DCI

8

Attached is the agenda for the STAP sessions next week along with a memo from [redacted]

Please let me know what, if any, backup material you desire for your session on Wednesday. I know that you have an ongoing dialogue with [redacted] on various subjects.

It occurred to me that you might want [redacted] to accompany you because so many of his people will be providing briefings. I learned from [redacted], however, that you may wish to have a candid discussion of the quality of S&T analysis. [redacted] presence might inhibit such a discussion. Please let me know if you desire him or anyone else to join you.

S

[redacted] will provide you a status report on NIE 11-12 (Soviet R&D), in case that question arises.
